

Nuribuilds Studio Figma UI Kit & Design System Overview

Complete architectural specification of typography, tokens, components & cards

01. Studio Color Palette & Surface Tokens

- **Surface Deep: #0B0E17:** Deep cosmic canvas background absorbing harsh screen reflections.
- **Surface Card: #161821:** Primary card container background with 1px border #1E293B.
- **Primary Brand: #EC4899:** Vibrant hot pink accent for primary calls-to-action & focus states.
- **Hover Glow: #F472B6:** Lighter pink highlight for interactive states and radial halos.

02. Typography Hierarchy & Font Scales

- **Headlines: Syne:** Geometric, modern display typography for H1-H3 titles (800 weight).
- **Body Text: Plus Jakarta Sans:** Ultra-readable humanist sans-serif for high clarity on mobile.
- **Technical Labels: JetBrains Mono:** Monospaced step badges, dates, and metric counters.

03. Component Architecture & Auto-Layout Rules

- **Bento Grid Cells:** 12-column responsive layout with 24px gutter and 16px corner radius.
- **Liquid Border Buttons:** Pill-shaped CTA buttons with 360-degree conic gradient animated borders.
- **Floating Glass Badges:** Pill badges with rgba(255,255,255,0.05) fill and subtle blur.
- **Material Symbols:** Google Material Symbols Outlined font integrated with standardized 24px box.

04. How Agency Partners Access the Figma File

To access the live collaborative Figma workspace with components and vectors, message your project lead or email hello@nuribuilds.com
